

**DIRECTIONAL SIGNS  
EXIT SIGNS  
SIGNAL LITES**

**Signs**

Cole offers an exceptional range of Signs in a variety of standard sizes and copy. They are designed so the sign will remain attractive and functional with minimal maintenance requirements. Weatherproof construction for exterior applications is optional. There is a choice of incandescent, fluorescent, or LED lamps, and emergency battery operation is optional.

Most models are for interior and exterior locations. These models are appropriate in schools, sports facilities, parking structures, detention facilities, medical facilities, and other areas where exposure and long life are required.

Modified or custom Signs may also be developed to meet your exact specifications.

To learn more about our custom capabilities and comprehensive range of standard lighting fixtures, call us directly or contact your local Cole representative.
