## Square Concrete Mount

### SPECIFICATION

#### Construction

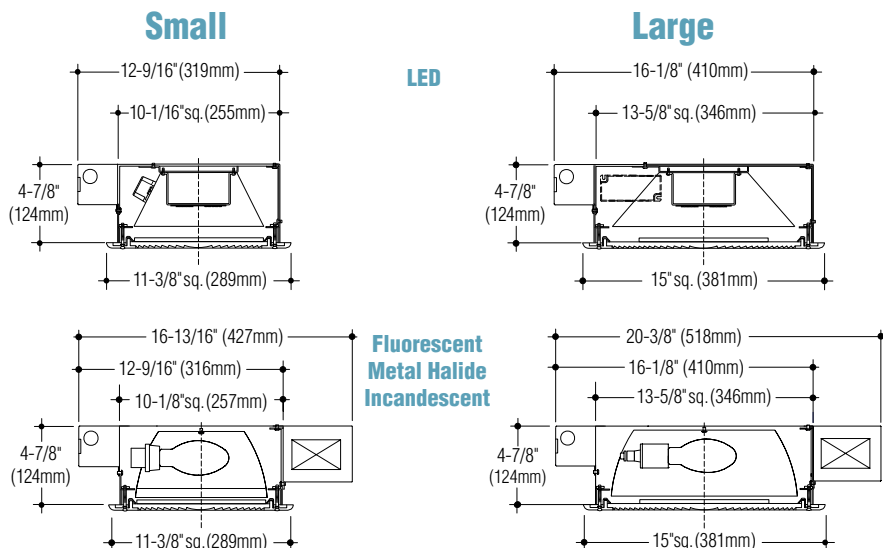

- Cast aluminum trim with metallic aluminum polyester coating. Other colors are available
- 16 gauge electro-galvanized steel housing with white polyester coating
- Drop-hinged trim secured by two stainless steel captive screws
- Semi-specular aluminum reflector
- Fresnel glass lens standard for LED, metal halide and incandescent models; flat Pattern 73 prismatic glass lens for fluorescent models. Other shielding is available.

#### Electrical

- Fixtures are wired for LEDs, compact fluorescent, metal halide or incandescent lamps
- Drivers and electronic ballasts are universal voltage
- Integral junction box has 1/2" conduit knock-outs at each end and two in back
- Junction box is accessible from above and within housing for wiring before or after the fixture is in place
- cETLus listed for wet locations when specified.

#### Mounting

- Housing has flanges for attachment to forms.

*Metal halide shown, fluorescent and incandescent models do not include ballast enclosure.*

#### Options

##### Trim:

Satin stainless steel. Add suffix  -N.

Cast guard. Add suffix  -G.

Cast regressed. Add suffix  -P.

##### Shielding:

Drop lens (Large only) Holophane #771.

Add suffix  -771

3/8" Frosted tempered glass diffuser.

Add suffix  -HD.

**Tamperproof screws:** Socket head trim screws.

Add suffix  -TP.

**Dimming:** Fluorescent and LED, Universal voltage, 0-10V driver. Add suffix  -DIM.

**Weatherproof:** IP 55 rated for exterior applications. Add suffix  -W.

**Emergency battery:** Provides up to 90 minutes operation for both LED and fluorescent models. Add suffix  -EM.

**Alternate faceplate color:**

Black. Add suffix  -BLK.

White. Add suffix  -WHT.

Custom color. Specify. Add suffix  -CC.

#### How to Specify

1. Select catalog number.
2. Add suffixes for options required to meet job conditions.
