Specifications

Construction

- Fixture body and canopy are 20 gauge steel
- Flat diffuser provided in bottom unless other options are selected • Diffusers are .125" white acrylic; other colors, textures, and materials are available
- Finish is textured powder coat polyester
- 7/8 O.D. stem or 7/32" chain is provided in length as required for specified overall suspended height

Electrical

- Integral multiple-lamp electronic ballasts are wired to allow 40 watt long compact or 32 watt T8 fluorescent lamp on opposite sides of interior channel to be powered by each ballast
- Lamps may be split into two circuits for remotely switched two-level illumination
- 120V-277V electronic ballasts are standard
- Optional single incandescent reflector lamp downlight has concentric louver assembly below for glare control
- Mounting plate above canopy mounts to ceiling structure and covers junction box
- Loop on stem meets seismic requirements
