2156 Series Steplites are available in louvered or non-louvered faceplates, in vertical or horizontal formats. A cast aluminum surface housing is also offered.

The junction box on Cole Steplites may be field mounted to the back or bottom of the fixture.

Steplites

2156 SERIES

Description

This large recessed Steplite is one of the most popular series. With its horizontal and vertical options, the 2156 Series is appropriate for a large variety of interior and exterior applications. The rugged construction, engineering excellence, and quality make these fixtures ideal for specification in most public areas.

Features

This series is offered in both vertical and horizontal formats and with optional surface mounting. Louvers in the 2156 Series are more widely spaced than in most fixtures of this type, allowing for significantly greater forward projected illumination. Exceptional durability is provided by the thick cast aluminum faceplate and the tempered glass diffuser. Louvered models offer even greater protection to the diffuser while controlling the distribution of the light. Cole Steplites feature a cast aluminum junction box which may be easily field mounted to either the back or bottom of the housing to best suit installation conditions.

Applications

The 2156 Series Steplites are suitable for concrete pour and stud wall mounting in indoor and outdoor installations. These LED fixtures will work extremely well in cold climates and may be specified for interior combustible conditions. The vertical format is ideal for bollard applications.

Custom

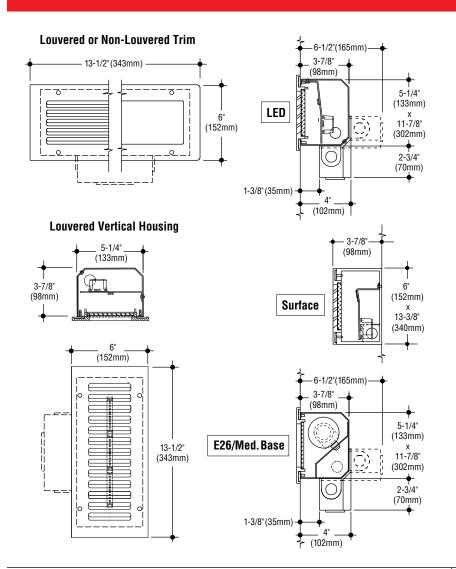

If your project demands a special fixture we would be pleased to discuss the production of modified standard fixtures or custom fixtures to suit your specific conditions. For more information on our custom capabilities, please contact your local Cole representative.

Options

Junction box: Bottom or back mounted as required for feed-thru. (Not for surface housing) Add suffix **-J**.

Cast Bronze faceplate and surface housing:

Satin finished, clear coated. Add suffix **-B**. **Tamperproof screws:** Socket head faceplate

screws. Add suffix -TP.

Alternate faceplate color: Black, White or custom color. Add suffix **-BLK**, **-WHT** or **-CC** (Contact factory for custom preference).

Emergency battery (4 Watt): Provides up to 90

minutes operation. Add suffix -EM.

Opal glass diffuser: Tempered. Add suffix -OPL.

Dimmina: Universal voltage 0-10V driver.

Add suffix -DIM.

Voltage: 277V. Add suffix -277.

LED colors:

4000°K (438lm), -H0 (1152lm), -H0-2 (2304lm). Add suffix **-4K**.

Amber* (FWC compliant, 590 nm). Add suffix -AMB.

Blue* Add suffix -BLU.

*Not available in HO-2.

How to Specify

- 1. Select catalog number with desired features.
- Add suffixes for options required to meet job conditions.
